As a logical and results-driven Full Stack Developer, I have a reputation as a calm and collaborative team player, who excels at problem-solving. Ability to work well under pressure, adapt quickly to new technologies, and effectively communicate with a diverse customer base. Passionate about using my technical skills and customer service experience to create user-centric websites and applications and to make valuable contributions to a team.

Technical Skills

JavaScript ES6+, HTML5, CSS3, MySQL, NoSQL, MongoDB, Express, React, NodeJS, jQuery, Bootstrap, Restful Api, TailWind CSS, Bootstrap and Typescript

Projects

Beer-Meal-Buddies | **Github Link:** <https://github.com/BranBao1995/Beer-Meal-Buddies> | **Deployed:** <https://branbao1995.github.io/Beer-Meal-Buddies/>

- Offered recommendations for drinks and meal pairings to enhance the user experience
- Utilized the Semantic UI framework to design a polished user interface
- Worked closely with a team of two members to develop the functionality of the web application utilizing Javascript, jQuery, HTML5 and CSS
- Incorporated data from external APIs to enhance the functionality of the application

Good-Food-Reviews | **Github Link:** <https://github.com/DianasJourney/GoodFoodReviews> | **Deployed:** <https://goodie-foodies-heroku.herokuapp.com/>

- Developed a social content management system (CMS) blog application for all users and food enthusiasts
- Utilized Insomnia, NodeJs and express to establish back-end API routes
- Created and seeded a database using MySQL and Sequelize
- Implemented a design for the front-end application layout using Handlebars and Semantic UI

ApolloDAE | **Github Link:** <https://github.com/abedhasan79/ApolloDAE> | **Deployed:** <https://apollodae001.herokuapp.com/>

- Developed an e-commerce website, with a focus on creating an intuitive and user-friendly interface using React and Tailwind CSS
 - Implemented back-end functionality utilizing MongoDB and GraphQL, to provide a seamless experience for users
 - Collaborated with a team of two to ensure all functionality was implemented and integrated effectively, utilizing typedefs and resolvers
-

Experience section
